

Identifying a Jeep - An In-depth Spotters Guide to the 72-75 AMC CJ-5

http://www.jeepfan.com/tech/Identifying-EarlyAMC_CJ-5.php

When AMC acquired the Kaiser Jeep Corp in 1971 they made many changes to the Jeep line starting in 1972. Identifying a 72-75 CJ-5 is actually a rather easy task. In this article we cover some of the key features that ease identification.

Longer front end - 3 inches was added to the rear of the front clip to allow the AMC I-6 and V8 a better fit. ***As a result the CJ-5 wheelbase increased to 84" from 81"***.

1955-1971 CJ5 (81")

1972-1975 CJ5 (84")
